

THE VALOR VL110

Valor PayTech's Pay-At-The-Table solution is now available at the lowest price point on the market! Not only does the VL110 beat all competitors in features, it now beats the competition in pricing.

The GPRS / Wireless terminal is now available at \$260 retail and \$250 wholesale*.

Wholesale minimum order is 1 box / 16 terminals.

WHAT ARE THE BENEFITS?

- This gives the merchant the opportunity to have a Pay-At-The-Table GPRS / Wireless solution at an incredible affordable cost
- At this price point it makes sense to offer merchants the newest technology and is more profitable to you. It also helps you retain a strong relationship with your merchants since you're giving them a wireless terminal at such a low rate.
- This gives you the ability as an ISO to upsell the terminal at a higher profit margin, putting more money in your pocket.

LEASING

Great news Valor PayTech terminals are now able to be leased on both FDGL and Ascentium. Take this opportunity to make more money.
